- (2) This Annex sets out the environmental assessment process that will apply to projects on First Nation Land until the enactment and coming into force of First Nation Laws on that subject.
- (3) The First Nation shall conduct an assessment process in respect of every project on First Nation Land consistent with:
  - (a) CEAA (1992), or

- (5) If the First Nation elects to use a process consistent with CEAA (1992), the following applies:
  - (a) When the First Nation is considering the approval, regulation, funding or undertaking of a project on First Nation Land that is not described in the exclusion list as defined in CEAA (1992), the Council of the First Nation shall ensure that an environmental assessment of the project is carried out in accordance with a process that is consistent with that of CEAA (1992). Such assessment shall be carried out as early as practicable in the planning stages of the project before an irrevocable decision is made.
  - (b) The First Nation shall not approve, regulate, fund, or undertake the project unless the Council has concluded, taking into consideration the results of the environmental assessment, any economically and technically feasible mitigation measures identified as necessary during the assessment, and any public comments received during the assessment, that the project is unlikely to cause any significant adverse environmental effects or that any such effects are justifiable under the circumstances.
